The Environmental Health Division is located on the 3rd floor of City Hall

PERMIT TO INSTALL HOUSEHOLD SEWAGE TREATMENT SYSTEM

I, _____, property owner, hereby apply for a permit to install/alter the household sewage treatment system at:

I agree to construct and install this system in compliance with the Household Sewage Treatment System rules and regulations of the Marion Public Board of Health and the Ohio Department of Health.

I agree to request a final inspection from the Marion Public Health Dept. at least 24 hours before completion to allow efficient scheduling. I will not cover this system until a final inspection has been performed and approved. I understand that no new dwelling may be occupied until an approved sewage disposal system has been installed, and to do so, may result in criminal prosecution.

I understand that the issuance of a permit is not an expressed or implied guarantee that the system will operate satisfactorily on this site, and that an approval does not guarantee that the system is completely free from defects or installation errors. I agree to abandon this system when sanitary sewers become available.

I understand that an operation permit will only be issued after the final approval, and I agree to follow all the requirements of the Marion Public Health Department for the operation permit, or the permit may be revoked or suspended.

The Installation Permit expires if installation/alteration is not completed within 12 months from date of issuance unless Property Owner obtains a six-month extension from the Marion Public Health Department.
